

Cologne Geosciences Colloquium

Fortnightly on Mondays at 5:00 pm

Geo-/Bio-Hörsaal | Zülpicher Str. 49a, 50674 Köln

for members and staff of the Department of Geosciences,
doctoral candidates, Master's students and other interested people

Summer Semester 2017

24
APR

Prof Falko Langenhorst | Institute of Mineralogy and Geochemistry, Friedrich-Schiller-University Jena | Mineralogy and space weathering of asteroid dust returned by the Hayabusa space mission

08
MAY

Prof Christian Schulz | Institute of Geography and Spatial Planning, University of Luxembourg | Post-growth and alternative economies: Conceptual and empirical challenges

22
MAY

Dr Jonathan Nichols | Department of Physics and Astronomy, University of Leicester | The NASA Juno mission to Jupiter

19
JUN

Dr Carsten Butsch | Institute of Geography, University of Cologne | Migrants in a globalised world. Transnational practices of Indians in Germany

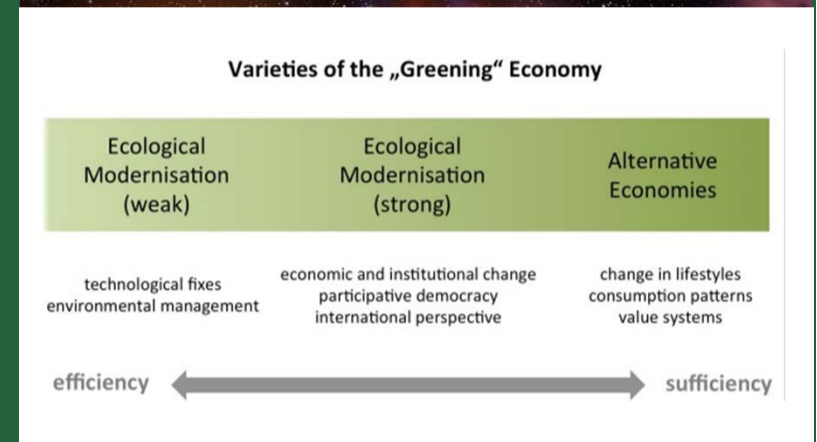

03
JUL

Prof Corinna Hoose | Institute of Meteorology and Climate Research, Karlsruhe Institute of Technology | Dissipation of Arctic mixed-phase stratus clouds

17
JUL

Prof Alexander Densmore | Institute of Hazard, Risk, and Resilience, Durham University | From process to form: debris-flow erosion, avulsion, and fan development

Scientific coordinator of the series: Prof Helmut Brückner

What has contributed to the dissipation of an Arctic stratus cloud during ASCOS?
